Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on 20 March 2008 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Claims 4, 6, 9, and 10 are identified as "previously presented", but appear to have been amended. Therefore, they should be correctly identified as "currently amended". In addition, claim 14 is identified as "new", but appears to be "currently amended". Claims 14-26 are indicated as "new", which they are not, and do not show proper markings as amended claims, which they apparently are.

Applicant is reminded of 37 CFR 1.121 which states: All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn — currently amended." . See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a)
